DOE Office of Civilian
Radioactive Waste Mgmt
PO Box 30307
NW Vegas NV 89036-0307

Dear Ms Scanlon,

I strongly urge you not to develop the Yucca Flats site as a nuclear waste repository. This is no time for fools like us to rush in. Millions of lives now and far into the future are at stake. No current technology begins to have this situation in control. It would be an unmitigateable disaster. Please think!

Sincerely,
Linda Sues
