Select a station from the map above, or from this list:

Alamo Nevada Go

Station Updates

The following stations update every hour

- Garden Valley
- Goldfield
- Medlin's Ranch
- Nyala
- Sarcobatus
- Stone Cabin

- Tonopah
- Twin Springs
- Warm Springs

All other stations update every 10 minutes

Data Collection Program

The Community Environmental Monitoring Program (CEMP) is a network of monitoring stations located in communities surrounding the Nevada Test Site (NTS) that monitor the airborne environment for manmade radioactivity that could result from NTS activities. CEMP is a joint effort between the Department of Energy, Nevada Operations Office, and the Desert Research Institute of the Nevada System of Higher Education. (more...)

To access data for a station, click on a site's name or triangle.

News

A page for the CEMP Workshop 2006 is now online

Tecopa/Shoshone station now online (more info)

Garden Valley is receiving a communications upgrade. (more info)

Each station now reports the time and date of its most recent update on the Station and Network Status page.
