1 think that Yucca Mountain is suitable for nuclear waste
2 storage. It's got earthquake faults. It's an
3 earthquake -- it has the faults with it. I'm really
4 concerned about the transportation of it. I have small
5 children. I was born in Las Vegas. My children were
6 born in Las Vegas. I -- it makes me nervous that I'm
7 going to have to sell my home and move if they put this
8 here and I don't think it's fair to me being, my family
9 being second generation here. I think if there is an
10 accident, the tourism, it's going to kill the tourism
11 for the state. How many people visit Chernobyl? I'm
12 really disappointed that the Department of Energy is
13 going to put almost 2 million peoples' lives at risk by
14 storing it in an unsuitable area.
