Subject: Yucca Mountain

Part of Records Package / Supplement / Correction

- C.htm

---

**551059**

My opinion: Nuclear waste does not belong in Yucca mountain. Transporting the waste through the Las Vegas freeway system would be catastrophic should an accident occur. Las Vegas has 1.5 million people now and according to Las Vegas Mayor Oscar Goodman there will be 2 million people by 2005.

My solution: Put the nuclear waste anywhere in Texas - because life there is not worth a plug nickel.
