MR. VAN BUIJTENE: First name is John,

13 J-O-H-N. Last name is V-A-N, B-U-I-J-T-E-N-E.

14 The reason I'm here, I'm not a citizen. I'm,

15 what do you call -- well, I'm in the United States for

16 over 20 years. And the reason I'm here, to me, all

17 those people are wasting their time. Yucca Mountain is

18 going to be used. That's the way I see it. The reason

19 I'm here, I'm worried like what happened in New York.

20 All they can do is nowadays is shoot a rocket out of

21 Asia and hit the place right on top.

22 My question is, what is going to happen?

23 Like here in Pahrump, we don't have a hospital. We've

24 got a couple of ambulances. We've got one helicopter.

25 What is going to happen?

0234

1 What I'm asking for is protection after the

2 fact. I'm totally convinced Yucca Mountain is going to

3 be used. But my worry is, what's going to happen if

4 something happens? You see what happened in Fallon.

5 They so-called -- they can't, so-called, not find out

6 what is causing effect. They know darn well what is

7 the effect. And the same thing is going to happen

552449

8 here.

9 All I'm asking for is that the public stands  
10 up and asks for emergency protection, especially here  
11 in Pahrump, because like today in the newspaper,  
12 hospital is united again. We need a hospital  
13 desperately, and certainly if they can truck it here  
14 over the road, all they have to do -- I was in the Navy  
15 during and after the war. I was in the Far East all  
16 over the place, all they have to do is take a little  
17 bomb and just drive next to the nuclear truck and stamp  
18 it on there and he goes. And it has to go miles and  
19 miles through desert. What there is no protection for  
20 those trucks or whatever. They can blow them up any  
21 time, and that's the same if they're going to use the  
22 railroad.

23 So my only concern is, we need emergency  
24 protection, and that's all. That's my statement. I'm  
25 more worried for after the fact, because we all know

0235

1 what's going to happen. You can't stop the government.

2 Never do. That's it.
