Comments: [Railroad easement, questions on easments and We have a few questions and concerns, regarding our farm in Caliente NV. We own the Railroad easement, we have spent alot of time and money to get it. It is our personal property, we would like a proposal on options how you are going to purchase or lease the easement. Another concern is our wells are fairly close to the railroad, is there any problem with them being so close. Another question is we were hoping to build a home next to our well, I am concerned about the safety of this, if there was a ememrgency the only exit on our property is across the RR. We also have deer and other wild life, quail, dove etc. that live along the railroad, we are trying to get a landowner tag or two, We have to get a deer count I know. But if the railway goes thru this is going to disrupt our plan. Last but not least I know your rail yard planned at Indian Cove, but if it would be easier and less expensive to purchase our farm 180 acres would be a nice yard and access easy to hwy. We then could purchase a place that would not have the questions and concerns we have right now.] We am also going to submit this to the lady (DOE)that met with us, I am not at the office to get the email right now but will later. I am not sure if your the people to contact or not but I figured the more people asked to more info found out.

Thank you ,

May McInnis and Family
